Annual Statistical Report

of Israeli Violations in Hebron Old city

2017

Driven by the increasing assaults by Israeli occupation soldiers and settlers against the Palestinian citizens and their property in the Old City of Hebron, the Legal Unit of Hebron Rehabilitation Committee continues to issue its statistical annual report on Israeli violations and assaults to expose Israeli occupation practices and document them.

In addition to its effort to safeguard the rights of the Palestinian citizens in the Old City of Hebron, the Legal Unit works to make an archive that documents the assaults and crimes committed by the Israeli occupation. It hopes that such archive would become a reference for relevant studies and researches.

Word by Director General of HRC

Israeli occupation forces and settlers' assaults against the Palestinians and their property in the Old City of Hebron and its surroundings continue in different ways. These assaults aim to force the Palestinians to surrender and abandon their historical houses, commercial stores and farms that are close to the settlement outposts in Tal Al-Rmeda, Shuhada' Street, Al-Sahla Area, Wadi Al-Hasin, Al-Baqa, Al-Bwera and others.

HRC continues its effort to preserve the Old City of Hebron and ensure protection for its citizens and properties against such assaults and violations resorting to legal options that yielded several achievements and stopped some of these assaults and aggressions.

In 2017, the Old City of Hebron was subjected to a spate of settlers assaults supported by military and political decisions issued by the Israeli occupation government. The Israeli Minister of Army, for example, decided in August to form a municipal council for Israeli settlers in the Old City in violation of the international and humanitarian resolutions which state that an occupation power is prohibited from transferring its citizens to the lands it occupies.

Pursuant to this decision, Israeli settlers announced that they would build (31) settlement housing units at the lot of the old Bus Stop. They were supported by the "Civil Administration's" approval of this colonial plan.

The Legal Unit of HRC encountered these colonial plans by filing petitions with Israeli courts to stop them.

The success of Palestine to include the Ibrahimi Compound and Old City of Hebron in the World Heritage List of UNESCO in July 7, 2017 angered Israeli settlers and Israeli occupation government. They stepped up their aggression on the IbrahimiCompound and the heritage and historical sites of the Old City as well as the property of its citizens.

Regardless of the patterns of Israeli occupation violations and assaults, HRC shall continue to act as the defense shield of the Old City and the Ibrahimi Compound. It shall also continue to expose Israeli occupation practices and pursue it legally in local and international chambers.

Mr. Emad Hamdan
Director General of HRC

Introduction

Hebron which is the largest Palestinian city in terms of area and population is still suffering the agonies of the Israeli occupation and the unfair system imposed by the Israeli occupation government on its citizens, especially in the Old City. They experience severe forms of oppression and persecution practiced under illusive security pretexts. The Israeli occupation government tightened restrictions on the Palestinians by erecting several military checkpoints, gates and watch towers. It issued several military orders, closing roads and stores to force the Palestinians out of their homes of the Old City. Its ultimate aim is to enable Israeli settlers to take over Palestinians' homes and properties.

Israeli occupation continuing aggression against the Palestinians and its violation of the international and humanitarian laws and norms aim to change the demographic landscape and historical patterns of the Old City. As such, Israel commits severe violations of human rights in Palestine as was the case in 2015 and 2016.

In light of such situation, the existence of the Legal Unit is necessary to challenge Israeli occupation practices and violations in legal ways at local and international levels. It is also necessary to provide psychosocial support for the victims of the Israeli violations.

This report presents the following:

1. Most important achievements of the Legal Unit.
2. Most significant challenges facing the team of the Legal Unit.
3. The activities and services conducted by the Legal Unit according to the strategic plan.
4. Presenting the results of the work of the Legal Unit (documentation of Israeli violations).

Achievements of Legal Unit

Achievements

1. Remove the encroachments placed by the settlers on a Palestinian gas station (Al-Ja'bari Gas Station).

Through a petition to the Israeli Supreme Court, the Legal Unit has succeeded in evicting settlers from a gas station owned by the Palestinian Ahmad Sami al-Ja'abari. The court decision also demands a halt of work as settlers were renovating and tiling the station in an attempt to create facts on the ground. It is worth mentioning that the gas station is located on al-Shuhada Street that has been segregated — closed to Palestinians but not Jews — for 16 years.

Image1: The renovation work by settlers at the gas station in preparation of taking it over.

Image2: The floor of the station after removing the changes settlers placed on it.

2. Eviction of settlers from a building located on al-Shuhada Street in the Old City of Hebron
Based on a case filed by the owners of the property, with the help of the Legal Unit, the Jerusalem Magistrate's Court issued a decision to evict settlers from the house of al-Dweik family located on al-Shuhada Street. The decision was made on January 2017 ,2 and the settlers were given sixty days from the date of the decision to leave the property.

The al-Dweik building is adjacent to the Beit Hadassah (Ad-Daboya) settlement in a closed military area. Hence, the court decision to stop settlers from seizing the property has thwarted the settlers' scheme to annex the property to the settlement. It is worth noting that the targeted building is one of the significant historic buildings on al-Shuhada street in Hebron's Old City and has always been a.

Image3: Dweik building from which the settlers were removed on the basis of the case submitted by the Legal Unit

3. Removal of construction residues in Khallet al Dab'a in the southern Hebron Hills

Based on the Legal Proceedings of the Legal Unit and following the Court's decision to remove the dust and litter that the settlers had accumulated in the Palestinian citizens' land. resulting from the settlers' attempt to construct a settlement road connecting the settlement of Ramat Mamra with the land of the Jaber family in the area of Khallet al-Dabi', to the east of Hebron, the Legal Unit has succeeded in thwarting the construction of this road.

The court decision was implemented on June 2017 ,1 and the Legal Unit followed up with the Israeli Civil Administration to ensure the removal of the leftovers. Indeed, bulldozers were seen in the area; they were loading the trucks with rubbish and construction residues and accumulating them on a road near the aforementioned settlement.

Imageε: An Israeli bulldozer removing construction scrapings upon the issuance of the decision

Image0: The lawyer at the Legal Unit checking on the area

4. Help release some detainees in the Hebron Old City

During 2017, the Legal Unit documented (97) cases of arrests among the citizens. The unit succeeded in following (55) cases until the release of the detainees. However, the remaining cases were referred to the relevant Palestinian official and civil authorities or were released after the investigation.

Image6: shows the Legal Unit's lawyer, TawfiqJahshan, who follows up the arrest of Hebron Rehabilitation Committee workers as they were taken to the police station.

5. Evacuation of the occupation army from Salah Aburjab's Property The Legal Unit was able to evacuate the occupation army from the stores of Salah Abu Rajab through an objection submitted to the Israeli legal advisor against the military order to close the building and use it for military orders

Image7: shows the occupation army breaking into the Salah Abu Rajab's building and turning it into amilitary barracks.

6. Submission of complaints to the United Nations special rapporteurs

The Legal Unit has processed numerous complaints for submission to the United Nations special rapporteurs. The Legal Unit has made a complaint to the United Nations special rapporteurs, including the special rapporteur on human rights in the 1967 Palestinian occupied territories, the special rapporteur on cultural rights and the special rapporteur on freedom of religion or belief, Human rights council , in addition to the Division of Special Procedures of the Office of the United Nations High Commissioner for Human Rights (UNOHCHR).

The Legal Unit filed a complaint against the Israeli violations in the Ibrahimi Mosque (Tomb of Patriarchs), considered an extremely significant Islamic site in Palestine. The mosque, built around 2000 years ago, is located at the heart of the Old City of Hebron. In addition, a complaint against the closures in the Wadi Al-Houssain area.

7. Revealing Evacuation of the occupation army from a Palestinian building in the Old City of Hebron

On July 2017 ,23, the Israeli occupation forces invaded the Shweiki building in Qaitoun neighborhood in the old city of Hebron and turned it into a military barracks. Later, the Legal Unit succeeded in evacuating the occupation army from this building by submitting an objection to the Israeli legal advisor, with the help of the building owner. It is noteworthy that the building is used as a warehouse and a glass manufacturing plant.

Image8: Shows the presence of the Israeli occupation army inside the Shweiki building and preventing its owner from entering it.

8. Evacuation of the occupation army from the house of a citizen in the Old City

The Legal Unit was able to evacuate the occupation army from the house of Yusuf Rifa'iyah after they invaded it on 2017/7/29 and turned it into a military barracks. The Unit submitted an objection to the legal advisor against this violation indicating that the house is inhabited and that the army forces unjustly turned it into a military barracks. This move resulted in the evacuation of the house from the army on Thursday morning 2017/8/3, after destroying the contents of the house and turning it into a health hazard.

Image9: The old building inhabited by Yousef Rifai>ya, which was invaded by the occupation army

Image10: The waste left by the Israeli occupation army after invading the house

9. Removing the candlestick from the roof of the Ibrahim Mosque.

On the basis of the legal proceedings pursued by the legal office of the Hebron Rehabilitation Committee in the Israeli courts, and in cooperation with the Directorate of Islamic Endowments in Hebron, a large candlestick erected by the Jewish settlers on 2017/12/13 was removed from the roof of the Ibrahim Mosque. In fact, the existence of this candlestick is regarded as an attack on the Waqf rights and touches the feelings of Muslims everywhere.

Image11: The candlestick erected by Jewish settlers on the roof of the Ibrahim Mosque

Violations' Report 2017

Violations of human rights 2017:

During 453 (2017) violation cases were committed by Israeli occupation forces and settlers against the Palestinian citizens of the Old City and their private and public properties. Each violation case has different violation patterns. And so, (617) violation incidents were committed by Israeli occupation forces and settlers against the Palestinian citizens and their properties in the areas adjacent to Israeli settlement outposts. The charts below show the violations documents by the Legal Unit in numbers. The reports released by the Legal Unit show that the majority of the human rights violations committed during 2017 were committed by Israeli occupation army and settlers rather than by Israeli settlers as shown in chart (1). Some violations are jointly committed by Israeli occupation soldiers and settlers. During 2017, Israeli occupation forces committed (318) violations, %70 of the total rate of violations committed.

While the number of violations committed by Israeli settlers against Palestinian citizens and their property during 2017 was (%14 ,(62 of the total rate of the violations committed during the same period, Israeli occupation forces and settlers jointly committed (73) violations, %16.

Chart (1): violations committed by Israeli occupation army and settlers during 2017.

Violation Incident: an assault occurred in a definite place and time, resulting in more than one violation of the rights of the citizens and their public and private property.

Violation: It is an act of violation and causes damage to a certain category.

Classification of violations by the targeted group

- Violations against people (men, women, children) as individuals and groups (319 violations).
- Violations against private properties (stores, houses and lands belonging to individuals (118violations).
- Violations against public properties (streets, roads, public gardens, schools and religious sites (180violations).

The violations against people (individuals or groups) outnumber violations against public and private properties as shown in the following report:

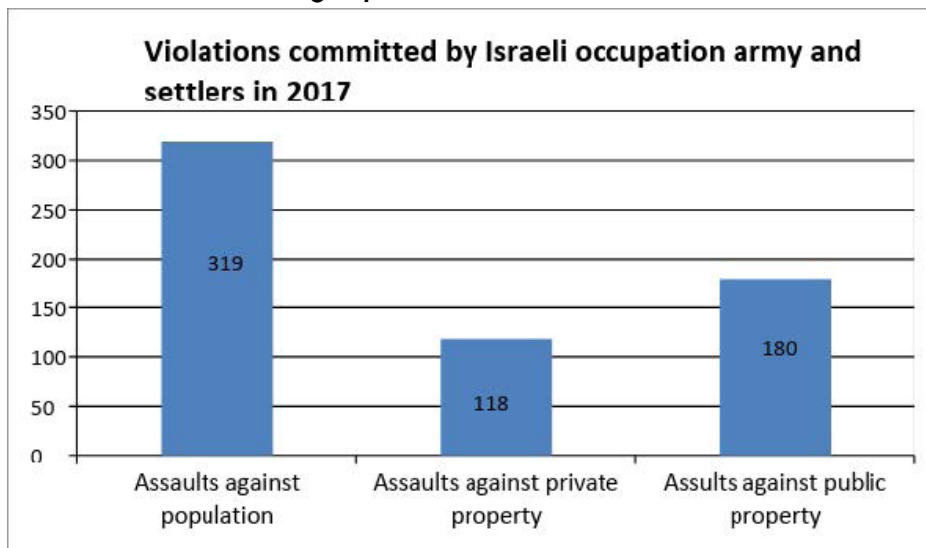

Table (2A): violations by Israeli occupation army and settlers against citizens and property in 2017.

Table (2B) shows the percentage of the type of violations by targeted group:

- Violations against people (%52).
- Violations against private property (%19).
- Violations against public property (%29).

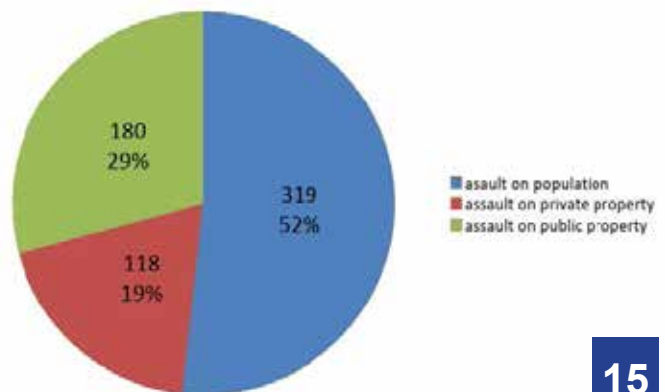

Chart (2B): percentage of assaults committed by the Israeli occupation army and settlers against the people and their public and private properties in 2017.

1. Assaults against citizens:

The assaults committed by the Israeli occupation against the citizens of the Old City of Hebron are divided into two patterns of violations:

- Collective violations: violations committed by the Israeli occupation army or settlers against a group of citizens, involving assaults on peaceful marches, denying prayers' access to the Holy Ibrahimi Compound and firing live ammunition and gas canisters against citizens. The groups of citizens targeted by these violations include children, especially school students, men and women. Due to the difficult conditions surrounding the documentation process, it was difficult to figure out the number of the affected of each category.
- Individual violations: violations committed by the Israeli occupation army or settlers against people individually as men, women and children. The staff of the Legal Unit of HRC was able to document these violations.

The violations committed by the Israeli occupation army and settlers against the targeted categories of the population (children, women, men) during 2017 are as follows:

- Assaults on children: these violations directly involved (68) children, (%36) of the total number of the individuals subjected to assaults.

- Assaults on women: these violations directly involved (29) women and girls, 16 % of the total number of the individuals subjected to assaults.

Annual Report On Israeli Violations in the Old City of Hebron

- Assaults on men: these violations directly involved (91) men, %48 of the total number of the individuals subjected to assaults.

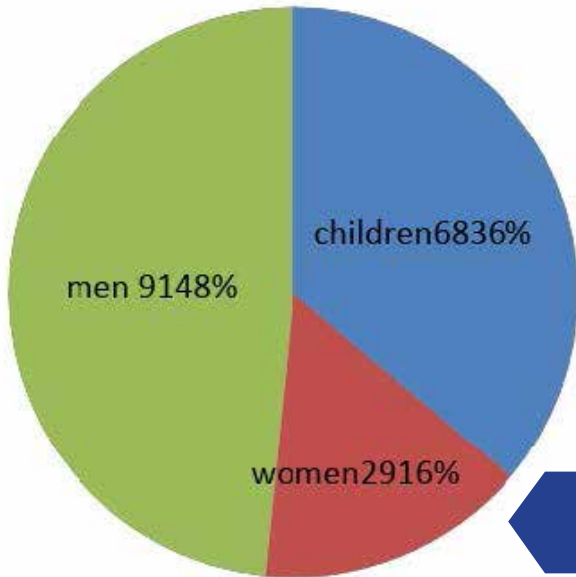

Chart (3): The percentage of assaults committed against citizens by the targeted category during 2017.

Detentions in the Old City

- Legal follow-up of detention cases:

- Israeli occupation army detention campaigns against Palestinian citizens in the Old City or its visitors under illusive pretexts aimed at expelling and intimidating them. most of detention cases are conducted at the electronic gates and military checkpoints erected at the entrances of the Old City and Ibrahimi Compound. In 2017, the Legal Unit documented (96) detention cases and secured the release of (55) of them. the rest of the cases were referred to formal and informal competent Palestinian authorities. some of them were released after they were interrogated by Israeli occupation police.

The detainees were distributed by sex and age category as follows:

- (44) children, (%46) of the detainees.
- (41) men, (%43) of the detainees.
- (11) women, (%11) of the detainees.

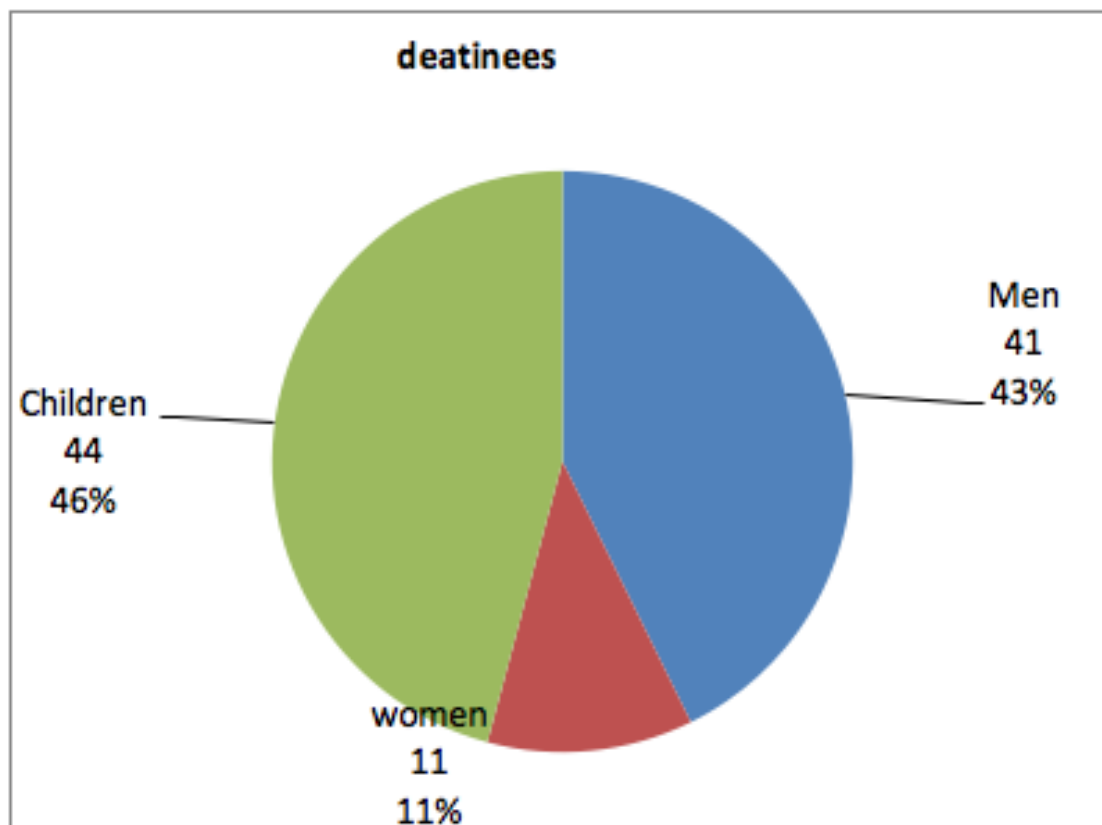

Chart (4): It clarifies the size and percentage of assaults against the Palestinian citizens by targeted group in 2017.

2. Assaults on private property:

They include assaults on the private property of the Palestinian citizens such as houses, lands, cars and stores. The Israeli occupation carried out (118) assaults against citizens' private property.

Annual Report On Israeli Violations in the Old City of Hebron

3. Assaults on public property:

They include assaults on public property in the Old City, especially religious places, streets, public squares and schools.

Israeli occupation army and settlers carried out (180) assaults against public property in the Old City distributed as follows:

- (121) assaults on streets and public squares, (%67) of the total number of assaults against public property.
- (16) assaults on schools, %9 of the total number of assaults against public property.
- (43) assaults on religious places, %24 of the total number of assaults against public property.

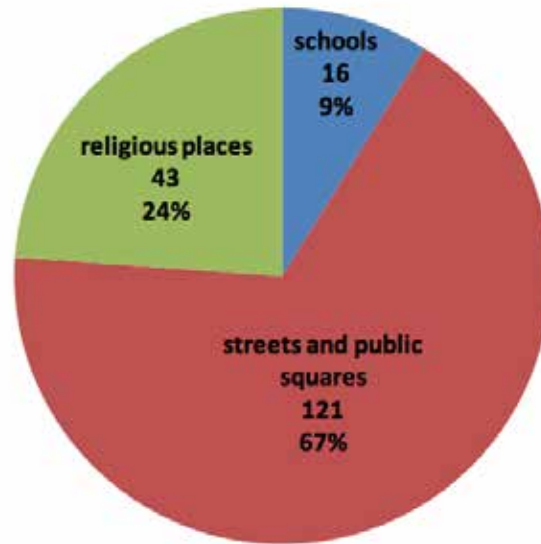

Chart (5) shows the size and percentage of the assaults committed by Israeli occupation and settlers against the public property in 2017.

Assault on Ibrahimi Mosque and Prevention of Calling for Prayer:

Israeli occupation prevented call for prayer in Ibrahimi Mosque (646) times in 2017. The following chart shows how often call for prayer was prevented during 2017.

It is worth mentioning that the Ibrahimi Compound is still subject to Israeli occupation. It was illegally and arbitrarily divided in the aftermath of the heinous pogrom committed by an Israeli settler who killed and injured dozens of Palestinians during dawn prayers in Ramadan in 1994 to take over the mosque and turn it into a synagogue.

Israeli occupation and settlers continued their daily violations against this significant shrine and its visitors. Israeli military checkpoints are stationed at its entrances and around it to impede people's access to it.

Table (6): It shows how often call for prayer was prohibited in the Ibrahimi Mosque in 2017.

- Holding Talmudic activities in the Ibrahimi Mosque and in its yards and courts.
- Celebrating the Passover
- Celebrating Purim.
- Preventing young people of both sexes from entering the Ibrahimi Mosque by identifying the ages of those entitled to enter through tight procedures such as clamping down on some them and detaining others. .

**Charts of Monthly
Reports on Israeli
2017 Violations**

Charts of Monthly Reports on Israeli Violations 2017

The Legal Unit of HRC documents Israeli violations and publish them on its electronic website on daily basis.

It also writes monthly reports that consist of daily reports of the daily violations. It translates them into English and shares them with local and international human rights organizations.

Annual Charts of Monthly Reports on Israeli Violations 2017

1 Violations report of January:

#	Date	Victim	Assailant	Location of assault	Description of assault
1	1/1/2017	Arafa family home	IOF and Settlers	Qasaba Old market	Break into the house and carrying out construction work inside it
